

# Announcement of the State Administration of Drug Administration of the General Administration of Customs of the Ministry of Commerce on the Orderly Development of the Export of Medical Materials

Announcement No. 5 of 2020

Published on March 31, 2020

At present, the global epidemic situation is accelerating and spreading. On the basis of the prevention and control of its own epidemic situation, the orderly development of export of medical materials is an important measure to deepen international cooperation in epidemic prevention and control and jointly respond to the global public health crisis. In the special period of epidemic prevention and control, in order to effectively support the global fight against the epidemic, ensure product quality and safety, and regulate the export order, since April 1, the export of new coronavirus detection reagents, medical masks, medical protective clothing, ventilators, infrared thermometer. When applying for customs declaration, the enterprise must provide a written or electronic declaration (see Annex 1 for the template), promising that the export product has obtained the registration certificate of China's medical device product (see Annex 2 for relevant registration information), which meets the quality standards of the importing country (region). The customs shall check and release the medical device product registration certificate approved by the drug supervision and administration department. The above-mentioned medical material export quality supervision measures will be dynamically adjusted according to the development of the epidemic situation.

Relevant medical material export enterprises must ensure product quality and safety, comply with relevant standards, and actively support the international community to jointly fight the epidemic.
